Sprint -4

Date	10 November 2022
Team ID	PNT2022TMID50334
Project name	IOT based smart crop protection
Mark	20

Node js installation :

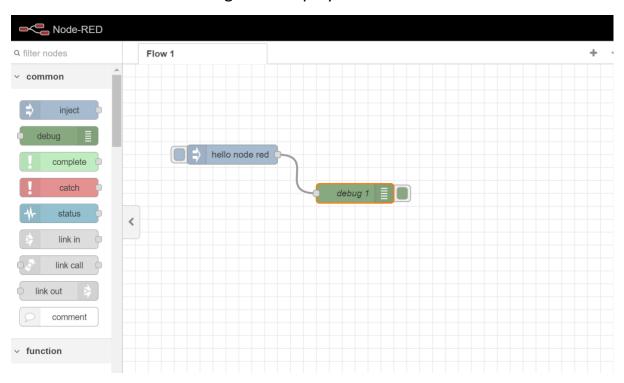

Download the Node.js source code or a pre-built installer for your platform, and start developing today.

Configure command prompt for error check .open node-red from the generated link:

```
node-red
                                          [info] Node-RED version: v3.0.2
[info] Node.js version: v18.12.1
[info] Windows_NT 10.0.22000 x64 LE
[info] Loading palette nodes
[info] Settings file : C:\Users\ebinp\.node-red\settings.js
[info] Context store : 'default' [module=memory]
[info] User directory : \Users\ebinp\.node-red
[warn] Projects disabled : editorTheme.projects.enabled=false
[info] Flows file : \Users\ebinp\.node-red\flows.json
[info] Creating new flow file
[warn]

                                                                                                                                                                                                                                                                                                     10 Nov 11:15:19 -
10 Nov 11:15:19 -
10 Nov 11:15:24 -
10 Nov 11:15:36 -
Your flow credentials file is encrypted using a system-generated key.
If the system-generated key is lost for any reason, your credentials
file will not be recoverable, you will have to delete it and re-enter
 your credentials.
You should set your own key using the 'credentialSecret' option in
your settings file. Node-RED will then re-encrypt your credentials
file using your chosen key the next time you deploy a change.
10 Nov 11:15:36 - [warn] Encrypted credentials not found
10 Nov 11:15:36 - [info] Server now running at http://127.0.0.1:1880/
10 Nov 11:15:36 - [info] Starting flows
10 Nov 11:15:36 - [info] Started flows
```

Connection IBM IOT in debug 1 and deploy:

Output:
